

Criterion Bicycle Handlebar Adapters

Criterion Pivot ■ Criterion Pivot Short

Product Codes: PIVOT 70 or 85
PIVOT SHORT 70 or 85

Features:

- All models available in either of two hardness 70 & 85
- All models snap/pull ON and OFF 1" diameter bicycle handlebars
- **Pivot** version is two piece allowing for much greater angulation and arm torque with adjustable friction pivot mechanism... higher performance and more difficult to release from the bars.
- **Pivot Short** can be used for children as young as three years old. Older children and adults use the Firm version. Both are compact in length and have a built-in wrist pivot for greater versatility and control.

- 70 references the hardness or "Durometer" of the material. The 70 model is softer, more flexible and forgiving than the 85 model.
- Handlebars can be taped with various materials to change the friction and force required to engage and disengage the **Criteria**s.
- All models fit right or left and equipped with ½ inch diameter threaded stainless steel coupler.
- Offset centerline duplicates normal palm grasping position for improved biomechanics.
- 70 Durometer Material
Children/adolescents and smaller proportioned adults and less aggressive riders will prefer the 70 models. Release loads approximately 15-20 pounds.*

- 85 Durometer Material
Average to larger adults or more aggressive riders. Requires more effort to engage and disengage from the handlebars. Release loads approximately 40-45 pounds.*

*Release loads were measured using the standard **Criterion** and one inch diameter smooth, bare metal handlebars without any tape covering. The load applied was a straight pulling force. No torque was applied. Tape, foam or fabric coverings will increase the amount of force and torque required to snap on or off the handlebars.

"L" Code: L6704

SPECIFICATIONS

Models:	PIVOT	PIVOT SHORT
Length:	4.0 in. (10.2 cm)	2.9 in. (7.4 cm)
Width:	2.5 in. (6.4 cm)	2.4 in. (6.1 cm)
Weight:	7.5 oz. (213 g)	6 oz. (170 g)
Color:	Black/Satin	Black/Satin

Product Code: DPDBBMU

Features:

- One handed activation operates both front and rear brakes.
- BMX style lever.
- Mounts on right or left side of handlebars.
- Fits 7/8 in. diameter (Standard diameter) mountain bike handle bars
- Single lever operates two cables.
- Cables are independently adjustable for tension.
- Compact lever and brake design.

Dual Bike Brake Lever

- One size fits both children's and adult's hands.
- Simple installation.*

Application:

- Persons missing a limb or with only single arm/hand function.
- All Adults. Children old enough to ride a mountain bike independently (7-8 years and older)

*To ensure safety, TRS recommends that the **Dual Bike Brake Lever** be installed and adjusted by a qualified bicycle technician.

DON'T FORGET TO ALWAYS WEAR A HELMET!
