

Pinch Hitter Bat Adapters

Product Codes: PINCHITTER, PINCHITTER HD, PINCHITTER FLEX

- 3 Models: **Pinch Hitter**, **Pinch Hitter Heavy Duty**, **Pinch Hitter Flex**
- The **Pinch Hitter** was designed for "Little League" age kids or persons with smaller hand proportions, who wish to swing a bat using the function and power of both arms.
- The **Pinch Hitter Heavy Duty** is designed for adults and larger, older kids who need more performance.
- The **Pinch Hitter Flex** is designed for adults and those who play a lot of baseball and

or softball and want the convenience of a replaceable Flexible Coupling and or who need a longer adapter.

- The **Pinch Hitters** are constructed of high performance, strong, flexible synthetic rubber and they snap on and off aluminum bat handles for safety. They all need to be "over-gripped" with the second hand for security when swinging a bat. They can be used either right or left handed but perform best on the leading hand and arm.
- The **Pinch Hitters** not only transfer body power and energy but can store and release energy. This feature helps improve and control bat swing, improve swing speed and increase ball hitting distances.
- **The Pinch Hitters** will screw into standard prosthetic wrists or disconnect style wrist adapters.

Application:

PINCH HITTER: Kids and Little Leaguers

PINCH HITTER HD: Adults, young adults and older children

PINCH HITTER FLEX: Adults planning on a lot of aggressive use.
